

HEAD AND NECK IMAGING WEBINAR

DATE: 13 MARCH 2021
TIME: 2.00 PM - 6.00 PM
PLATFORM: ZOOM (LINK WILL BE PROVIDED UPON REGISTRATION)

Welcome to this Head and Neck Webinar organized by the SIG Neuroradiology, College of Radiology. Following the success of the Neuroradiology Seminar in 2019, we have decided to dedicate this webinar solely to Head & Neck Imaging. Although the Head & Neck fraternity in our country is still small, the interest is growing as evidenced by the increasing number of Radiologists subspecializing in it. General Radiologists will encounter many Head & Neck imaging on a daily basis, from simple cases such as Sinusitis to complex ones such as Head & Neck malignancy. Thus, this Webinar is aimed at shedding light on interpreting and reporting these cases and eventually helping you in your daily work.
